

How Do Young Children Learn to Read? It's Not Going To Be Simple!

Are you trying to help your child develop his or her reading skills? In this article, I am going to share with you a few tips that can make a big difference to the progress of your child.

As a parent, there is no doubt that you want the very best for your children. That is probably the main reason why you want to teach your son and daughter how to read at a very young age. You hope that by doing so, you will be giving them a competitive advantage when it is time for them to go to school.

How Early Can You Start Teaching Your Child to Read?

One of the most common questions I receive is this: 'When can I start teaching my child how to read?'

Well, you can start tutoring your child as early as two years old. In fact, as long as your child knows how to speak, there is no reason why you can't teach him or her how to read.

Discover how you can teach your young child to become a fluent reader by spending only 5 to 10 minutes per day.

Teaching A Young Kid to Read Is Challenging.

Let's face it. As enthusiastic as you are as a parent, teaching a young kid how to read can be a very challenging task. Any parents who have ever tried to do so can tell you how difficult it is.

Most likely, you are having a very hard time trying to get your kid to focus on one thing for more than a few minutes. This is understandable.

Children tend to have a very short attention span and they are easily distracted. Therefore, when you are teaching them how to read, it is very important to make the lessons as interesting as possible. You are advised to use books with colorful pictures so that you can attract their attention.

One Important Tip You Have to Know

Do you know what is one of the best ways to teach a child to read?

Well, the answer is phonemic awareness.

A lot of studies have been done on this topic and it is backed by scientific evidence. It is found that children with phonemic awareness went on to develop better reading skills compared to those who don't.

Therefore, if any of your children are having difficulty in picking up reading skills, you may have to spend more time helping them to develop their phonemic awareness.

Read Stories to Your Child Every Night

One simple thing you can do to help your child develop his or her reading skill is to read stories to them every night before they sleep. This will help them develop a keen interest in reading. An added benefit is that you will be able to bond with your child at the same time.

Discover how you can teach your young child to become a fluent reader by spending only 5 to 10 minutes per day.
